Objective

Frontend Developer with 1.5 years of professional experience in building scalable, responsive, and high-performing web applications using React.js, Next.js, and Angular. Proficient in state management (Redux Toolkit), API integration, and modern UI frameworks including Tailwind CSS, Material UI, and Shadcn UI. Strong foundation in Git/GitHub, Firebase, and CI/CD pipelines. Recognized for delivering pixel-perfect UIs, optimized performance, and clean, maintainable code in collaborative team environments.

Work Experience

ExpertInAsia Private Limited - Indore, India | Frontend Developer | On-site

Apr'24 – Aug'2025

- Developed dynamic, responsive web applications using **Next.js, React.js, Angular, CSS3 & Tailwind CSS**, for clean, scalable interfaces.
- Collaborated with cross-functional teams to consume and integrate **REST APIs**, efficiently managing application state with **Redux Toolkit** and ensuring seamless data flow.
- Utilized design systems like **Shadcn UI** and **Material UI** to build reusable, scalable components that maintained design consistency across multiple projects.
- Worked with tools such as **Firebase, Git and GitHub** for **version control, cloud functions, and CI/CD Pipeline**.

Skills

HTML5 | CSS3 | Javascript | Tailwind CSS | Next.js | React.js | Preact.js | Bootstrap | Shadcn UI | Material UI
Redux Toolkit | Angular | Core Python | Firebase | Git & Github

Projects

DeftRank - Student Ranking Management

- Built a student ranking system frontend using **Preact, Redux, Firebase, and Bootstrap**, integrating APIs for real-time **data** updates and a smooth user experience.
- Integrated **Node.js/MongoDB** backend services **APIs** to manage student evaluations without developing the backend infrastructure.

Ilollo Learn - EdTech Platform

- Managed the **frontend** of a **multilingual online course platform** using Angular, Bootstrap, and Firebase, integrating APIs from a backend built with **Hapi framework** and **MySQL**.
- Implemented **frontend-based language support** to handle **multi-language course content**, improving the **user experience** for an **online education platform**.

Rented Wheels - Car Renting Application

- Managed the **frontend development** using **React, Firebase, Redux, and Material UI** for a car and bike rental platform, enabling users to browse, book, and manage vehicle rentals easily.
- **Integrated third-party APIs** for real-time vehicle availability, booking management, and payment processing to ensure a smooth and responsive rental experience.

QtPet - Pet Care System

- **Developed the frontend** using **React**, **Shadcn UI**, **Tailwind CSS**, and **Google Maps API** for a pet care and transportation platform, allowing pet owners to book, track, and manage pet services easily.
- **Integrated Google Maps API** to enable real-time tracking of pet transportation and service provider locations, improving user trust and convenience.

Education

Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal, India	Aug'22 - Jun'24
<ul style="list-style-type: none">• Master of Computer Application CGPA: 7.6/10	
MakhanLal Chaturvedi National University, Bhopal, India	Aug'19 - Jun'22
<ul style="list-style-type: none">• Bachelor of Computer Application CGPA: 7.8/10
